# Metamask Wallet Creation

In the Chrome browser, download the Metamask extension via [metamask.io](https://metamask.io)

Do click on “Add to Chrome” button

Do click on “Add Extension”

The extension will be automatically installed.  
Click on the “Get started!” button

# Metamask Wallet Creation

If you already have a wallet you can import it with a seed phrase.  
If you prefer to create a new one click on "Create Wallet"

Create a strong password to interact with the MetaMask extension from your computer and access your wallet.

Such password will not allow you to import your Metamask wallet or access it from another PC.

Choose the password with the security standards we recommend:

12 or more characters including numbers, lowercase letters, uppercase letters and symbols.

Click on the "Terms of use" checkbox and then on the "Create" button

The image shows the Metamask wallet creation interface. At the top, the Metamask logo is visible. Below it, the text "New to MetaMask?" is displayed. There are two main options: "Import Wallet" (with a download icon) and "Create Wallet" (with a plus icon). The "Create Wallet" button is circled in red. Below these options, the "Crear Contraseña" (Create Password) section is shown. It includes a "Nueva contraseña (mínimo 8 caracteres)" field, a "Confirmar contraseña" field, and a checkbox for "I have read and agree to the [Términos de uso](#)". A "Crear" (Create) button is at the bottom.

# Metamask Wallet Creation

In the next step you will get the seed sentence of your wallet.

The seed allows you to retrieve and import your wallet on another device

If a third party obtains the seed phrase could access your wallet and withdraw all your funds

Once the seed has been copied to a secure location in the exact order in which it appears on the screen, click on the "Next" button

METAMASK

## Secret Backup Phrase

Your secret backup phrase makes it easy to back up and restore your account.

**WARNING:** Never disclose your backup phrase. Anyone with this phrase can take your Ether forever.

Remind me later

Siguiente

Tips:

Store this phrase in a password manager like 1Password.

Write this phrase on a piece of paper and store in a secure location. If you want even more security, write it down on multiple pieces of paper and store each in 2 - 3 different locations.

Memorize this phrase.

[Download this Secret Backup Phrase](#) and keep it stored safely on an external encrypted hard drive or storage medium.

# Metamask Wallet Creation

In the next screen you will have to enter the previous seed in the correct order to confirm that you have stored it correctly.

Click on each of the words in the correct order to add them to the top box.

Once they are all entered, click on the "Confirm" button.

Your MetaMask wallet will be ready to receive tokens.

By default, the wallet is linked to the Ethereum network. If you need to include another blockchain, you will have to do it manually.
